

GOVERNMENT AUTONOMOUS MEDICAL COLLEGE, RATLAM (M.P.)

Mentor-Mentee Programme

The needs of a first year medical undergraduate student are different from those of a final year student or a postgraduate resident. Therefore there is an imminent need of **Mentor Mentee Programme** with a overall objective to help the students in all aspects and getting adjusted in Medical college and Hostels.

Mentoring is known to promote development of professional skills irrespective of the discipline. It is a natural phenomenon that emanates from the desire of a teacher and experienced individual to give and the need of an student to grow, develop and enhance in knowledge.

A mentor is looked upon as a guide, counselor, teacher, friend, supporter, and much more in professional and career development as well as psychosocial or personal aspects. The mentee is expected to take a proactive role in discussing the problems related to personal and social with mentor.

Following is the List of Mentors & Roll number wise students. Students can discuss their problem with their respective Mentors.
